

ANIMATED Modern Food & Travel Instagram Posts

Thank you for purchasing our product. All items in this pack are optimised to be user friendly and easily editable. In order to edit any of these files you will need Adobe Photoshop CS4, CS5, CS6 or CC.

Included in this pack are 10 animated instagram posts that you can export as videos, but also as static stories. Changing text, images and colors is quite straightforward so you shouldn't have any issues with that. You will of course need basic Photoshop knowledge, but if you have any additional questions for us just message us and we'll be more than happy to help!

Fonts we have used in this pack are not included in this download, but they can be easily downloaded from Google Fonts:

Montserrat - <https://fonts.google.com/specimen/Montserrat>

Playfair Display - <https://fonts.google.com/specimen/Playfair+Display>

Images we used are downloaded from <http://unsplash.com>

HOW TO USE INFO:

1. Download all the fonts and install them

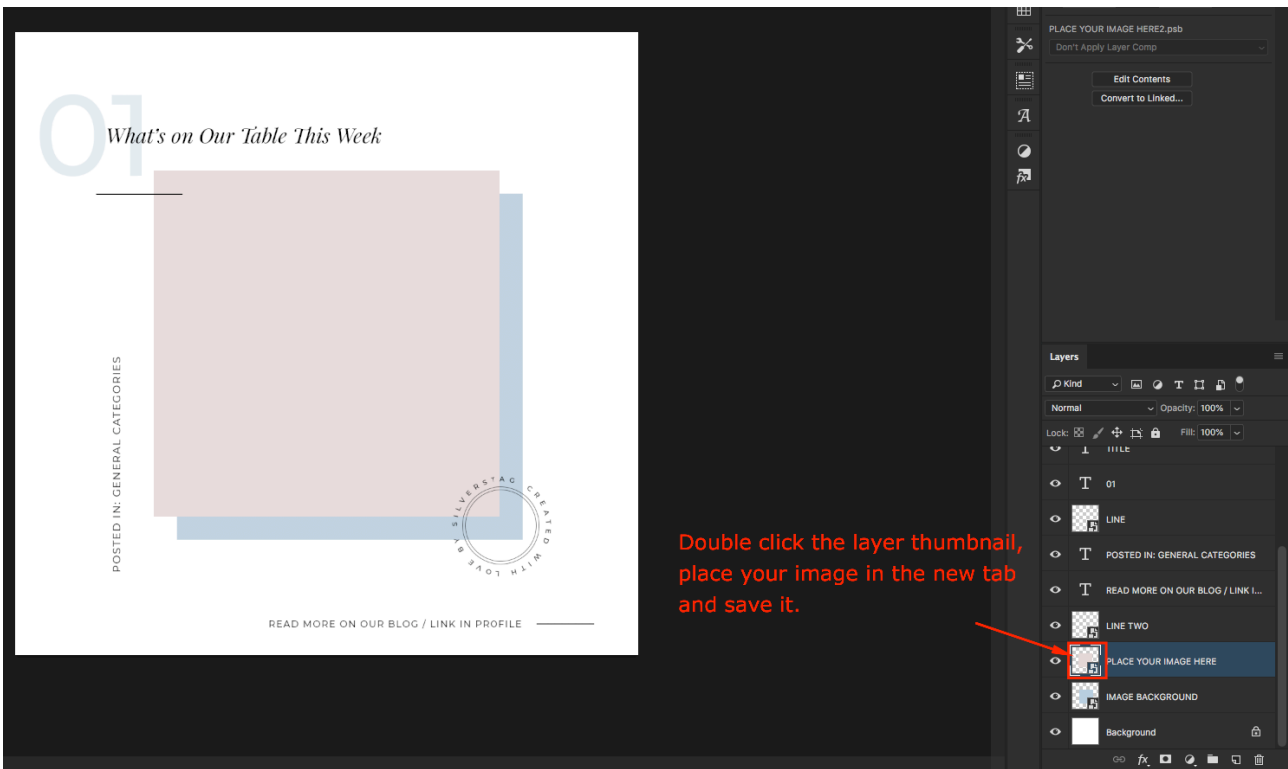

Open the links above in your browser and download the fonts. Double click each font file and install fonts on your computer before opening our photoshop files. If you've already opened photoshop files, but missing the fonts, just close the photoshop and install the fonts first.

2. Edit photoshop files

Open the photoshop file you wish to use and change the text and images. Double click layers titled PLACE YOUR IMAGE HERE and just drag your image in the photoshop. Resize it and position as you want and save the file. Go back to the original file and move / edit all other elements as you want. Please note that some elements have masks over them, so moving them might not work properly.

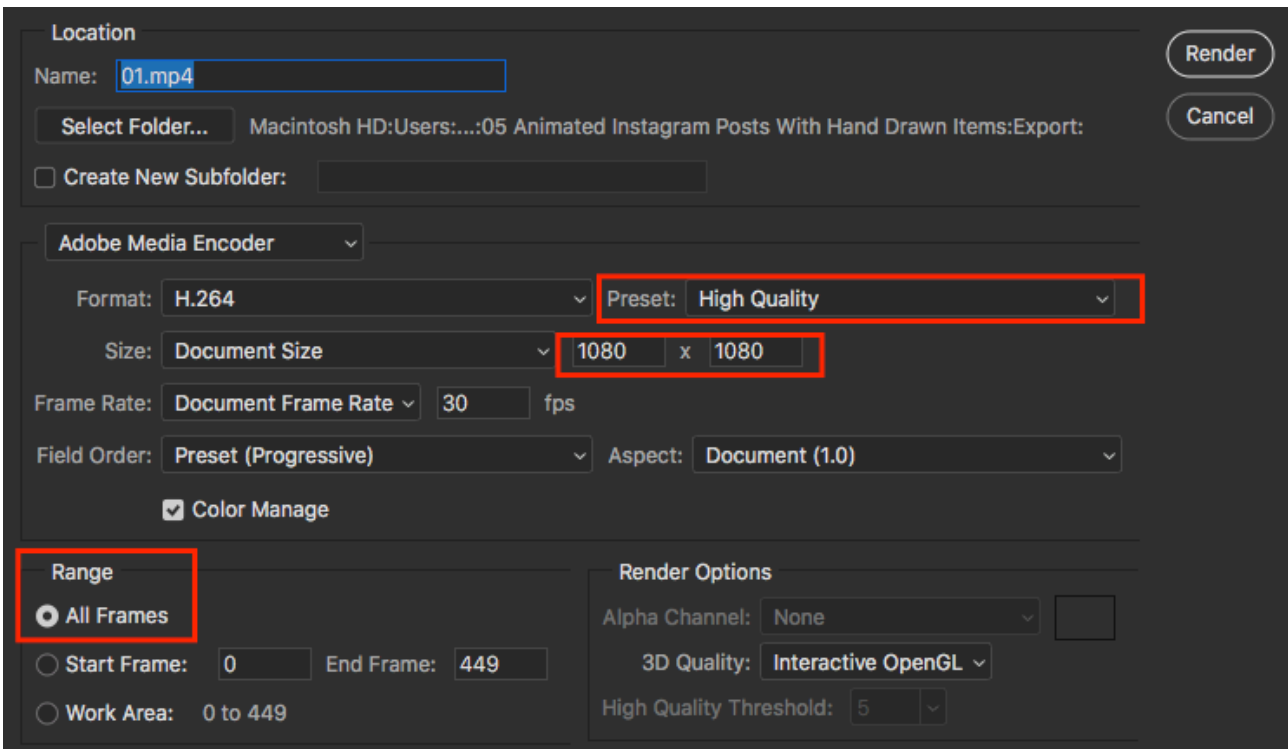

3. Working with smart objects

All image files and all vector graphic / hand drawn elements can be easily replaced and updated via Smart Object. In order to edit these you need to double click the layer thumbnail and the new window will be opened.

4. Save your files

If you want to save a static story, just click on **File > Export > Save for web** and save the post as JPG or PNG file. If you prefer video posts, just go to **File > Export > Render Video** and save it as 1080x1080px in highest quality. Make sure that the export window looks something like this:

5. Transfer your videos to your phone and publish them on Instagram.

**ANIMATED
INSTAGRAM STORIES**

20 PHOTOSHOP FILES
& VIDEOS

The image shows several modern Instagram stories arranged on a light beige background. The stories feature various themes: a 'S/S 2018' fashion story, a '#SALE' announcement with a woman in a white dress, a 'WINE TOURS LA DOLCE VITA' story with a wine bottle and fruit, a 'Let me take you to...' story with a building and a bicycle, and a 'FINAL SALE' story with a woman in a white lace dress. Each story includes a 'LINK IN BIO' button and a 'PHOTOGRAPHED' credit.
